

## Environmental and Sustainability Policy

### OUR COMMITMENT

Imparta Engineers is committed to taking on board all available processes and mechanisms to reduce the impact of waste on the environment and where promote the use of sustainably sourced products. The Organisation places importance on reducing the environmental footprint as part of all our activities.

### OUR AIMS AND OBJECTIVES

Imparta Engineers commits to minimising the impact on the environment through:

- Providing a safe and healthy workplace
- Having an environmentally sustainable aware culture,
- Being an environmentally responsible neighbour in our community;
- Conserving natural resources by reusing and recycling;
- Using, in our own operations, processes that do not adversely affect the environment;
- Ensuring the responsible use of energy throughout the organisation;
- Participating in efforts to improve environmental protection and understanding;
- Taking steps to improve environmental performance continually;
- Using and or working with suppliers who promote sound environmental practices; and
- Enhancing awareness among our employees, – educating and motivating them to act in an environmentally responsible manner.

### OUR RESPONSIBILITIES

Imparta Engineers will:

- Develop guidelines for staff and users to adopt sound environmental work practices
- Act responsibly to correct incidents or conditions that endanger health, safety, or the environment. It will promptly report any such incidents to the relevant authorities and inform affected parties as appropriate.
- Use reasonable endeavors to , reuse and recycle materials, purchase recycled materials, and use recyclable packaging and other materials.
- Use all reasonable endeavors so that its services and products are safe, efficient in their use of energy, protective of the environment, and able to be reused, recycled or disposed of safely.
- Use all reasonable endeavors to minimise materials and energy use, prevent air, water, and other pollution, and dispose of waste safely and responsibly.
- All reasonable endeavors to conserve energy by improving energy efficiency and giving preference to renewable over non-renewable energy sources when feasible.
